

The P-500 peeler is a robust, safe and efficient equipment of proven efficiency.

It is polyvalent for all fresh fish that need to be peeled mainly and tested: cuttlefish, squid, skate, ray, sole, halibut fillet and others.

model	P-500
TECHNICAL CHARACTERISTICS	
Robust AISI 304 stainless steel construction	Sí
Moisture protection (IP-65)	Sí
Water inlet	Sí
Conventional peeling (manual)	Sí
Minimal product shrinkage	Sí
High peeling accuracy and speed	Sí
Maximum moisture protection	Sí
Product cephalopods and flat fish, fresh	Sí
Stainless steel table	Sí
Nozzle for fur evacuation	No
Water recycling system (bathtub + pump)	No
Wheels	No

model	P-500
POWERS AND DIMENSIONS	
Total power (Kw)	0,75
Motor angular speed (RPM)	1.410
Blade dimensions (mm)	410x22x0,7
Water inlet diameter (inches)	3/4"
Maximum weight (Kg)	100

(\*) Dimensions and power ratings are generic and subject to change based on actual requirements.
